WOMAN SUFFRAGE.

A Washington dispatch says in one way or another a good deal leaks out regarding the President's message. President Cleveland's first message may contain one surprise, an outspoken utterance in favor of woman suffrage. The report that he would say a word in favor of it has been whispered about, but of course no means of verifying it exist. A very astute politician, however, said this about it: "I don't think it unlikely. On the contrary, I think it probable; it would be a very adroit thing for him to do, and don't let anybody forget that Mr. Cleveland is a remarkably adroit person. The case stands precisely thus: Every thinking man or woman must see that woman suffrage is inevitable. Revolutions never go backward. The enfranchisement of the negro let loose the flood-gates of suffrage, and they won't be closed any more. The question has passed out of the domain of ridicule. Washington Territory has it, the Senate has a select committee on woman suffrage, and last Winter Senator Palmer, a very level-headed man, as far from a crank as any I know, made the first set speech on the subject ever made in Congress. It has been well-known for a long time that there would be no serious opposition to a Sixteenth Amendment in Congress if only the women would ask for it, which they practically have not in respectable numbers. In New York this year the question has come to the front on the State election. Four years from now it will come still more forward. Now the man who will take the lead on this question instead of following in its wake will have an immense constituency. Just see one of these women go into a factory and tell them that if they could vote they would have better wages and shorter hours of work, and their employers would be a measure in their power. See the impression it makes. If suffrage would benefit any woman it would be the wage workers—and they are a numerous and aggressive class, anxious to benefit themselves. If Cleveland announces himself as in favor of woman suffrage he would gain thousands among the laboring classes, to say nothing of an army of feminine workers who would hail him as their apostle.

The Candelaria True Fissure says: The Nevada newspaper that commends the candidacy of Senator Fair for re-election is devoid of State pride. Socially, politically, and in every other way, he is unfit to represent a great State in the councils of the nation. Any one of the Republicans so far mentioned as either a possible or positive candidate, is far his superior, while the Democratic party has several men as far above him as a white man is above a Chinaman.

Christian Reis, who received the appointment of Assistant Appraiser for the San Francisco District, has sent his declination to Port Collector Hager. This is the first instance on record.

The sale of tickets for the Nevada concert season has been very satisfactory and the young California cantatrice is assured of a warm welcome to her native State.

Senator Evans is authority for saying that out of 80 appointments of soldiers made by Secretary Bayard, 79 were Confederates, who fought in the Southern army.

Senator Stanford's princely endowment of twenty millions in land and coin to the Palo Alto University is the beginning of a new and better era for California.

There is some talk of trying to induce Vanderbilt, Conkling or Blaine to be candidates for the Senate from Nevada.

It is rumored that King Kalakau has offered R. M. Daggett the Hawaiian mission to the United States.

The United States does not particularly need the Hawaiian Islands.

Hon. Thos. Wren declares that he is not a candidate for Senator.

POLITICS AND THE NAVY YARD.

Secretary Whitney Says That They Must be Entirely Divorced.

The following is the full text of Secretary Whitney's recent letter, a synopsis of which was telegraphed:

NAVY DEPARTMENT, WASHINGTON, D. C. Oct. 19, 1885. To the Foremen in the Respective Navy Yards:

I have by orders heretofore issued invested you with the responsibility of recommending for appointment your subordinate employees. This has enabled you in each case to constitute your force without limitation, except that of a veto power in the shape of the approval of your superior officers. It put into practical effect a naval regulation which, as I understand, had grown into general disuse. Under this arrangement you can properly be held responsible for the character and efficiency of the force you respectively superintend. The reports received by me from the naval officers in the various yards has been greatly increased since the late reorganization, and in general there is satisfaction among your superior officers. Complaints, however, come to me from time to time of individual cases of foremen, which makes it proper for me to state more distinctly than I have heretofore done what the law and the department both exact of you in exercising this power. The law contemplates, I think, that no political consideration shall influence the selection of workmen in the navy yards. That it has been disregarded in the past can constitute no justification for the future. If the law was entirely silent on this subject it would necessarily be involved in any attempt to make the yards effective. The yards should be placed where public work can be done economically and well, and unless they are made so it is perfectly evident that they will not be trusted with any large amount of public work. It is your duty to disregard every consideration except the efficiency of the men as workmen. I am quite aware that the clamor for places in the navy yard is so great as to involve great disappointment on the part of those who cannot be given employment, and that you will be subjected often to unjust criticism, from the effects of which it is my duty to protect you. That I will do. But I shall from time to time investigate the manner in which you conduct in this regard, and if in any case I shall ascertain that men have been taken into the yard—men who are not competent workmen—for political reasons, I shall consider it sufficient grounds for the dismissal of any foreman and shall dismiss him. I have heretofore in many cases applied to your superior officers for the purpose of ascertaining the truth of charges that men were being employed because of their political relations and influence, and am happy to say that in almost all cases the reports have been of a satisfactory character. But in the heat of a political canvass I fear that in one or two cases there may be ground for just complaint, and I shall institute sufficient investigation to satisfy myself personally and sometimes by formal communication with your superior officers, who have the veto power upon your appointments and can be held practically responsible for any maladministration of the kind referred to. I am unable to see how, under the system as at present constituted, the navy yards can be made any other than effective workshops, separated from politics. In requiring the approval of your superior officers to your selection of men, a check upon you is interposed for the purpose of making difficult the growth of abuses of the character referred to herein. But I ask your special co-operation, and I desire you to understand that you have no discretion whatever in this matter. I do not expect to investigate the politics of men employed, and I am quite aware that whatever you do will probably displease and disappoint. But your deviation from the correct rule will be seen in the employment of inferior men, in constituting an inefficient force, and in the subordination of the yard as a workshop to the interests of political friends. This can be readily detected by your superiors, and will result in your dismissal in any such case.

W. C. WHITNEY, Secretary of Navy.

A Promise from Morrow.

Congressman Morrow, in an interview in the San Francisco Post, states that he has drawn up a bill which he intends to present to Congress at its coming session, which will have for its object the regulation of the Chinese immigration to this country by restricting that can come on any one vessel. Mr. Morrow says that he will make the passage of this Act his great work during the approaching Congress.

Every day in the week, between the hours of 10 A. M. and 2 P. M., a square meal and a glass of his Philadelphia lager can be had at J. J. Becker's for the price of a domestic cigar.

E. V. Spencer, of Susanville, returned from Sacramento yesterday morning.

A CITY OF TWENTY MILLIONS

An Outline of Senator Stanford's Plan for the Palo Alto Institutions.

S. F. Chronicle, Nov. 10.

It is in summing up the money value of the enormous endowment to be created by almost a single stroke of Senator Stanford's pen that its importance can be best appreciated. The Palo Alto ranch is worth \$1,200,000, the Gridley ranch \$1,600,000 and the Vina ranch \$2,500,000. The total value of the lands is \$5,300,000. But there is to be a money endowment, the exact amount of which is not yet determined. It can be confidently stated, however, that the whole foundation will equal \$20,000,000. Senator Stanford has authorized the following statement or definition of his project:

The buildings at Palo Alto will be constructed on the general plan of the parallelogram. The first will be for the male and female colleges, which are to be distinct institutions, yet with an interdependence. The plan of the buildings will be such as to admit of expansions and additions which from time to time the necessities of the institution may require. An important step in the development of the plan will be the construction of buildings for parents and guardians of pupils and such other persons as the Trustees may designate, this in the hope that they may select Palo Alto as a temporary or permanent home, and that the rental from such buildings will constitute a very considerable part of the income of the institution. If this hope should be fulfilled, the establishment of preparatory schools will follow, so that facilities may be afforded for the education of children of a tender age. The project includes an agricultural department and special buildings for mechanical institutes, museums and art galleries connected with the colleges. To crown the whole institution there will be other structures which will be devoted to instructions in the science of government, in law, in medicine, painting, music, mechanics, and, in fact, in all the higher accomplishments. This superior course will be free, and those leading up to it will be available at very moderate tuition fees. All the post-graduates of this and other universities and colleges will be entitled to its advantages, as well as all other deserving persons. The founder had provided that the salaries paid to the professors and teachers shall be liberal, in order to induce the leading instructors of the world to seek positions in the faculty.

The proximity of the institution to the great city of San Francisco and to the university at Berkeley and to the schools of the surrounding counties, with the increased and cheapened facilities for traveling, will make it easily accessible. The time now occupied in reaching Palo Alto from the heart of the city is one hour; but when the line of the Southern Pacific road is laid, as it shortly will be, along the bay shore, the time can be reduced to less than forty minutes. This will enable business men with their families to reside at Palo Alto and children residing in San Francisco to attend the schools and still return at night to their parents. An opportunity will be afforded to every woman who has a taste for music or painting, or any of the kindred arts, to receive at Palo Alto without charge the benefits of the higher courses of study in those arts. No discrimination in the advantages which it affords is to be made between the sexes. In the opinion of its founders, if any such discrimination were made, it should be in behalf of women, whose gentle and dependent natures less fit them to advance or protect their own interests.

The climate of Palo Alto is perfectly suited to such an institution. The sites for the buildings will probably be marked out at once and the general architectural plans will be determined this Winter by Senator Stanford while in Washington. The buildings will not be erected any faster than they are actually demanded, the grantors recognizing, as it appears from the grant, the fact that extensive and expensive buildings alone do not constitute a University, but that it must depend for its success rather upon the capacity and attainments of its faculty. Institutions of the kind contemplated do not spring full-blown into life; they must be the growth of years. The Universities of the Old World have each behind them a century or more of time, but they all sprang from small beginnings. The development of the present institution will be, of course, more rapid, because those who are nurturing its infancy may easily profit by the lessons of the past.

BREVITIES.

Lieutenant Governor Laughton is in town.

Jerry Schooling went up to Truckee yesterday.

Col. Hardin and Senator Kaiser were in town last night.

Governor Adams is circulating around among his Reno friends.

W. R. Chamberlain made a flying visit to the Comstock yesterday.

Judge Harris, of Carson, was a passenger for the Bay last night.

Sheriff Stinson, of Eureka, was in town yesterday on his way home.

T. J. Tennant, of Carson, came here yesterday to distribute some carp.

Hay is still advancing. Baled hay is selling at \$12 per ton, which makes hay in the stack worth about \$9.

Hon. W. J. Hanks, of Elko, was in town yesterday on his way to the Bay with a car-load of fine horses.

Ex-Senator Stewart was a passenger for Carson yesterday morning. He came in from Tuscarora the night before.

Simeon Bishop, son of Dr. Bishop, Superintendent of the Asylum, was thrown from his cart on Tuesday and had two of his ribs broken.

Senator Stewart, who yesterday went up to his home at Valley Springs, returned last night and was a passenger for the Bay. It is said the Senator has purchased a house in Carson and will soon take up his residence there.

Eureka Consolidated.

The annual report of the Superintendent of the Eureka Consolidated, at Eureka, Nevada, shows the receipts of the mine from all sources during the year ending November 1st to have been \$471,718 51. The net resources are stated at \$1,032 60. The President, in his introduction to the report, states that the ground above the water level has yielded over \$32,000,000 in bullion in the past and paid the stockholders \$4,817,500 in dividends. He says that the experience of the past year has demonstrated that large profits cannot be anticipated by shareholders from the extraction of the lower-grade ore above the water level. He therefore recommends that the new shaft and pumping machinery be put in order, and vigorous prospecting operations inaugurated below the present workings.

A Caving Tunnel.

The local train from Carson did not arrive on time yesterday noon but was an hour and a half late on account of a fear that the big tunnel this side of Carson was caving in, making it dangerous for trains to pass through. A careful examination was made and although it was found that the late storm had displaced some of the rocks and dirt, and was causing the giving-way of the earth over the south arch, still there was not very much danger of an accident and the train came on through all right.

Miners' Liberality.

Mrs. John E. Kavanaugh, whose husband was killed in the Hale and Norcross mine last Summer, has received \$60 from the employees of the Ophir mine and \$18 from the Consolidated California-Virginia mine, donated on pay day toward the support of the bereaved family. She returns sincere thanks for their kind liberality. Mrs. Patrick McCue also returns sincere thanks to the miners of the Gould and Curry and Hale and Norcross for the sum of \$200, donated on pay day.

Promptness Worth Acknowledging.

I feel it my duty to publicly acknowledge the promptness of Fireman's Fund Insurance Company of California, in adjusting losses. My place was destroyed Saturday morning. On Monday's train their adjuster, Mr. Fay Monville arrived and settled the claim that day on a very liberal basis. It is but due to them to thank them for such course and recommend them to the public.

J. O. GREGORY,

WADSWORTH, Nov. 10, 1885.

CROP PROSPECTS.

The Estimates Offered by the Agricultural Department.

The November crop report of the Department of Agriculture says: The present crop of corn is the first full average in the rate of yield since 1880, which was the last of the series of six crops of 26 to 28 bushels per acre. The present crop was grown on an acre of from 53,000,000 to 54,000,000 acres, and slightly above the average for a period of ten years, or 26 1/4 bushels per acre. The highest rate of yield is 36 1/4 bushels in Nebraska and Ohio. Three corn-growing states, which produce four-tenths of the entire crop, Illinois, Iowa and Missouri, each averaged several bushels per acre, less than in the census year, Illinois being 31, Iowa 32 and Missouri 30. Utah averages 36, Massachusetts, Connecticut and Colorado 30, New Hampshire and Rhode Island 31, Michigan 33, Wisconsin 32 and Kansas 31. The Southern States make an average yield. The quality of corn is very good and in the East and South medium in the central parts of the West, and somewhat depreciated on the northern border from Michigan to Dakota.

COTTON.

Cotton returns are local estimates of the yield per acre. They are somewhat higher than those of the last two years, but materially lower than those of '80 and '82. The increase over the yield of last year is most marked in Texas and Georgia. In Arkansas and Tennessee, where the average is usually high, the rate is depressed by unfavorable conditions. Killing frosts are only reported on the northern border of the cotton belt. The top crop is very light and many places has scarcely an appreciable quantity. The past week has been generally favorable for picking, which is well advanced, more than three-fourths of the crop having been gathered. Rains have interfered with the harvesting more in Georgia and Alabama than elsewhere. With good weather hereafter, the proportion to be gathered in December will be confined to localities favored with top crop worth harvesting.

POTATOES.

The potato crop is smaller than that of '84, in consequence of injury from rot, which reduced the New York crop nearly one-third. There is much complaint of rot in Wisconsin and Iowa, and in some counties of Michigan, Illinois and Minnesota.

HAY.

The reported yield of hay indicates a crop of over 47,000,000 tons nearly as large as that of last year.

BUCKWHEAT.

The buckwheat crop will be a large average yield, which will exceed 14 bushels per acre.

The Reservation.

The Lavo Independent says: The mining discoveries near Hawthorne are certain to bring about some change in the Indian reservation at Walker Lake. Large tracts of mountain containing minerals and wood and water are included in the reservation. These are utterly useless to the Indians, or at any rate not the least use is made of these resources by the Indians. Along Walker river, and included in the reservation, is rich, fertile land enough to support several times the number of Indians located there. Very little of this fine land is improved. The Indians wander up and down the railroad, he around the towns and stations, beg or steal, but will not work. It is no kindness to these people to prevent the development of great mineral resources on ground utterly worthless to them. A change should be made in the Walker Lake Reservation.

Preparing for the Holidays.

Nasby is a successful caterer for the holiday trade, as he always makes purchases of large and varied stocks, in which about every want can be supplied by those intending to make presents, from diamonds, watches, jewelry, albums, books, stationery, fancy goods of many kinds, and the whole range of toys from the most elaborate to the most simple. He imports largely from the Eastern States, as well as purchasing from the best stocks to be found at San Francisco. He is now receiving his holiday goods, some of which are on display.

Senatorial.

The two Reno papers, both Republican, are indulging in a little friendly debate as to who will or can be the choice of their party for United States Senator. It is amusing to read the editorials of those two excellent journals on this interesting subject, but to the Tribune the bare discussion of the proposition seems rather previous. The Gazette predicts that ex-Senator Bill Stewart will not be a candidate in the event of Mr. Sharon's death, and the Journal replies in these words: "Why, what has that to do with it? If the people are crying for Stewart, can they not be accommodated just as well without as with Sharon?" Then the Gazette, in quite a lengthy editorial, goes on to prove that for many years past the dear people of Nevada have not cried so much for individuals as for the sacks that may have been at their disposal; just as though the people of the Silver State would descend so low as to sell their votes for filthy lucre; just as if such a thing as a Legislator selling his vote for United States Senator for five minutes before the Legislature went into joint convention ever occurred. Perish the thought, "publish it not in Gath," or Nevada may be some day termed the "Rotten Borough!" The Tribune may at some future time, when the Spring time cometh, denote to the public its preference for the high and (at this time) extremely important office, but for the present will content itself by asserting that its greatest disquietum is a life-long unswerving Republicanism.—Carson Tribune.

The Baby To-night.

The Enterprise of yesterday says: "The Rag Baby" made its adieu to the Comstock last night to a good house. It is a rattling funny piece. It has no plot and requires none. It serves the purpose for which it was created; namely, to make the audience laugh, and its success in that direction is positive. Interspersed with its comical situations the musical melange of the piece is very tasteful and well selected, and gives an opportunity to every member in the cast to show his or her vocal powers. The company is composed of well trained artists; the girls are very pretty and fascinating, and though their skirts on the stage are decidedly short their talent is long, and that in a measure compensates for the lack of dress goods material. Altogether it is a first-class combination for the production of that class of plays, and gave a very charming entertainment.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-awf-1vr

Dr. Allen
261 PRIVATE DISPENSARY.
262 KEARNY ST. S.F. CAL.
Established for Scientific and Speedy Cure of
Chronic, Nervous and Special Diseases.

The Expert Specialist

Dr. ALLEN, as is well known, is a regular
graduated Physician and Surgeon, edu-
cated at Bowdoin College and University of
Michigan. He has devoted a lifetime to the
study of the treatment and cure of diseases
within his specialty.

YOUNG MEN

And MIDDLE-AGED MEN, who are suffering
from the effects of Youthful Indiscretions or
Excesses of manly years, Nervous and Physi-
cal Debility, Impotence, Lost Manhood, confu-
sion of ideas, dullness of vision, to society,
despondency, pimples on the face, loss of
energy and memory, frequency of urinating,
etc. Remember, that by a combination of vege-
table remedies of great curative power, the
Doctor has so arranged his treatment that it
will not only afford immediate relief but per-
manent cure.

MY HOSPITAL EXPERIENCE

(having been surgeon in charge of two leading
hospitals) enables me to treat all private trou-
bles with excellent results. I wish to distinct-
ly understood that I do not claim to perform
impossibilities, or to have miraculous or su-
pernatural power; I claim only to be a skillful
and successful Physician and Surgeon, thor-
oughly informed in my specialty.

DISEASES OF MAN.

All applying to me will receive my honest
opinion of the complaint—no experiment-
ing. I will guarantee a positive cure in every
case. I undertake, for \$1000. Consultation
in office or by letter FREE and strictly
private. Charges reasonable. Thorough ex-
amination, including chemical and microscop-
ical analysis of urine and advice, \$5.00. Office
hours, 9 to 3 daily; 6 to 8 evenings; Sunday, 9
to 12 only. Call or address

DR. ALLEN.

26 1/2 Kearny Street, San Francisco Cal.
P. S. I have a vegetable compound, there-
sult of many years of special practice and hard
study, which under my special advice has
never failed of success in the cure of Lost
Manhood, Prostatitis, etc. d&w-tf

And in accordance with the law, and an
order of the Board of Trustees, made on the 22d
day of Sep., 1885, so many shares of said stock
or each parcel thereof as may be necessary will
be sold at public auction, at the office of the
company, Chambers building, Virginia street,
Reno, Nevada, on Thursday, the 19th day of
November, 1885, at one o'clock P. M. of that day,
to pay said delinquent assessment, costs of ad-
vertising and expenses of sale.
RENO, October 21, 1885

PIERCE EVANS Secretary.

EQUALIZATION NOTICE.

NOTICE IS HEREBY GIVEN THAT AT
a regular meeting of the Board of
County Commissioners of Washoe county, Ne-
vada, held on the 24th day of September, 1885,
said Commissioners sitting as a Board of
Equalization, upon complaint duly made and
entered therein, caused citations to issue as
follows:

1.—To W. B. Todhunter, requiring him, the
said W. B. Todhunter, to be and appear before
said Board on the 30th day of September, 1885,
and show cause why the number of stock cattle
assessed to him for the year 1885, should not be
raised from 1,500 to 3,400, and the value
thereof from \$22,500 to \$45,000. That on the
30th day of September, 1885, the consideration
thereof was continued until Monday, October
6, 1885, at which time the Board proceeded to
consider the matter, and no appearance being
made in objections filed therein, the number
of stock cattle assessed to him was raised from
1,500 to 3,400, and the value thereof, \$22,500,
was added to the assessed valuation of his said
property, thus raising the assessed valuation
of said personal property from \$22,500 to \$45,000.

2.—To George D. Winters, citing him to ap-
pear before the Board on the 30th day of Sep-
tember, 1885, and to show cause why the valua-
tion of personal property assessed to him for
the year 1885, should not be raised from \$10,-
930 to \$23,940. That on the 30th day of Sep-
tember, 1885, the consideration thereof was
continued until Monday, October 6, 1885, at
which time the Board proceeded to the con-
sideration of the matter, and no appearance
being made or objections filed therein, the valua-
tion of his personal property was raised as
follows, to wit: 66 head of horses from \$10
per head to \$20 per head, and 2,400 head of
sheep retained by him was raised to 3,000
head; thus raising the assessed valuation of
his sheep from \$3,600 to \$11,250, and a total
raise of value of personal property from \$6,530
to \$16,000.
T. V. JULIEN,
Clerk of the Board.
RENO, Oct. 6, 1885.
